# TEAM MEMBERS: MICHELLE LEFEBVRE AND MARK BOSWICK

# jitters.ipd21.com

# Jitters is an e-commerce website for coffee houses

https://github.com/Michelle-Lefebvre/projectJitters

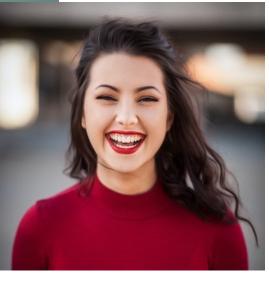

https://trello.com/b/DOfHtexs/ipd21-php-project-jitters

## **BACKGROUND:**

# WHAT MAKES A CUSTOMER GO TO A SPECIFIC SHOP?

LOCATION

# GOOD COFFEE

out?

# QUALITY SERVICE

# **CONVENIENT**

- With so much competition between coffee houses...
- How do you retain customers?
- What makes a store stand

#### **BACKGROUND:**

Jitters is a coffee shop app to allow customers to place orders prior to pick-up, create accounts, view menu, paperless receipts and earn rewards.

Helps the owners analyze sales, track orders and reward/ retain valued customers.

The BIG PUSH before launch: All the 'last minute things' to do ALWAYS takes way more time than you think! For example I had 39 html.twig files to review and validate. That's a lot! Making a spreadsheet really helped me stay organized and focused to get it all done.

**Bootstrap: simplifies css responsiveness. Saves time** 

Forms: I didn't have much experience using forms before this project. type="email, number, password, search, tel, text or url"

**AN EXTRA WEEK:** 

# Add images to menu items Stylize the cart screens

Implement payments

# **Activate Profile**

# DEVELOPMENT
